ABSTRACT. The new replacement name *Takashius* nom. nov. is proposed to solve the homonymy between the fascioliariid genus *Okutanius* Kantor *et al.*, 2018 and the hymenopteran genus *Okutanius* D.R. Smith, 1981.

РЕЗЮМЕ. Предложено замещающее название *Takashius* nom. nov., для разрешения гомонимии между родом сем. Fascioliariidae – *Okutanius* Kantor *et al.*, 2018 и родом перепончатокрылых *Okutanius* D.R. Smith, 1981.

The genus *Okutanius* Kantor *et al.*, 2018 (Fascioliariidae) with the type species *Fusolaturus kuroseanus* Okutani, 1975 was erected for three species of the subfamily Fusininae. Recently our attention was attracted to the fact that the name is preoccupied by the generic name *Okutanius* D.R. Smith, 1981 (Hymenoptera: Tenthredinidae). Therefore a replacement name is proposed herein.

Family Fascioliariidae Gray, 1853

Takashius nom. nov. pro *Okutanius* Kantor *et al.*, 2018, non D.R. Smith, 1981

Zoobank registration: urn:lsid:zoobank.org:act:6307E2EF-9AE5-4361-A453-7E0B32FFD8B9

Type species (by typification of replaced name): *Fusolaturus kuroseanus* Okutani, 1975.

The generic concept is in accordance with Kantor *et al.* [2018].

Etymology: The genus is named after Takashi Okutani. The gender is masculine.

Genus composition: *Takashius kuroseanus* (Okutani, 1975), comb. nov.

T. ellenae (Kantor *et al.*, 2018), comb. nov.

T. aikeni (Lussi, 2014), comb. nov.

Acknowledgements

Our sincere thanks to Prof. Meicai Wei from Jiangxi Normal University, China, who attracted our attention to the homonymy.
